

## ENERGY BENCHMARKING – WAREHOUSE / OFFICE

Terasen Gas is building a database of information on how natural gas is being used. The aim is to allow our customers to compare their own gas usage against benchmark data. For example, data provided may indicate that a customer is 15% above average usage, in the lower quartile of similar users, or 25% above the benchmark for the sector. This will enable our customers to realize the potential to save gas and help Terasen Gas to provide targeted assistance.

All individual customer data will remain confidential.

### CUSTOMER DATA

Name	
Position	
Location / site name	
Phone / fax	
E mail	
Account number	
Gas rate	
Annual GJ's	

### KEY DATA FOR BENCHMARKING

Floor area (sq. feet)	
Staff number	
Hours of operation	
Is gas used for space heating?	
Is gas used for water heating?	
Is gas used for cooking?
